Our unique instruments of influence

We influence legislators, the Government and state bodies to take decisions contributing to economic growth and better enterprise environment.

Herewith, we are able attract the attention of the Prime Minister and Cabinet of Ministers to the most relevant business issues and problems.

- FEU is the only business association participating in the meetings of the Inter-Agency Commission on investor rights protection, counteraction to illegal takeover and seizure of enterprises. The group is headed by the Prime Minister and includes Ministers, Members of Parliament, heads of state services and security structures.

- We work as part of the Expert Advisory Board on Licensing under the State Regulatory Service. This is a unique Ukrainian authority for pre-trial settlement in the field of licensing.

- FEU is a member of the Council for State Supervision and Control. It protects business from groundless unscheduled inspections.

- We are a part of a Government working group on business protection from unscrupulous law enforcement officers. The group also includes the National Anti-Corruption Bureau of Ukraine, the Security Service of Ukraine, the State Fiscal Service, the National Police.
